true exclusivity

PUREDISTANCE: ONE OF THE MOST EXCLUSIVE PERFUME HOUSES IN THE WORLD

Puredistance was founded in 2007 by Jan Ewoud Vos. His dream was to create a small Perfume House that offers true exclusivity and timeless beauty. Working together with Master Perfumers from London, Paris and New York he feels privileged his dream has come true: Puredistance has indeed become one of the most exclusive and special Perfume Houses in the world.

PURE PERFUME ONLY

Puredistance offers only Pure Perfume Extrait: the most precious version of fragrances. Apart from that each Perfume has its own strong personality. In many reviews customers and perfume bloggers praise the fact that each of the Puredistance Perfumes has a genuinely unique soul and signature.

MASTER PERFUMERS

Puredistance only works with the world's most renowned Perfumers. The noses behind the seven Puredistance Perfumes are Annie Buzantian in New York, Antoine Lie and Cécile Zarokian in Paris and Roja Dove in London.

PERFUME SIZES AND ACCESSORIES

Currently, the Puredistance Master Perfume Collection consists of seven perfumes which are available in 3 different sizes: the 17.5 ml Perfume spray, a 60 ml Perfume flacon and a 100 ml Perfume flacon with a chic leather holder. All Perfumes are finished by hand and packaged in the beautiful Puredistance giftbox which comes with a certificate of authenticity that is personally signed by the owner Jan Ewoud Vos.

AN INDEPENDENT AND COSMOPOLITAN COMPANY

While the Puredistance Perfumes are made in London, Paris and New York, the main office and design centre of Puredistance is located in a historical building in the Netherlands. Here an international team enjoys designing the Puredistance Collection and giving good old fashioned personal service to our international customers. Puredistance is a 100% independent company and can afford to stay small, personal and special.

SMALL IS BEAUTIFUL

Our motto is: 'small is beautiful'. In today's world of fragrances, where big luxury powerhouses rule, it seems we have become a rare bird, which is something we cherish. It is our wish to continue creating understated elegance and timeless beauty, hand in hand with true exclusivity. The best proof of this exclusivity is the fact that less than 100 carefully selected perfumeries worldwide are authorised to sell the Puredistance brand. This kind of exclusivity is hard to find today.
